ADVANCES IN UROGYNÆCOLOGY AIUG 2026

Welcome MESSAGE

Dear Colleagues,

It gives us immense pleasure to welcome you all once again as we come together to explore new horizons and challenge long-held myths in the ever-evolving field of Urogynecology, alongside world-renowned experts and distinguished faculty.

Our previous International conference in 2017, 2019, 2023 – CADAVER CONFERENCE & 2024 was highly appreciated, and the overwhelming enthusiasm and participation of our delegates were truly rewarding. The recent developments and debates surrounding mesh surgery have brought renewed focus to native tissue repair for stress urinary incontinence (SUI) and pelvic organ prolapse. To address these important advances, our live surgical telecasts will feature these procedures along with several other innovative and educational surgeries.

Through our didactic sessions, we aim to cover the entire spectrum of Urogynecology, including contemporary controversies in gynecological surgery and the principles of Enhanced Recovery After Surgery (ERAS). In addition, we have meticulously designed realistic simulators for our pre-conference hands-on workshops, providing participants with a unique opportunity to interact closely with expert faculty in a one-on-one learning environment.

We are delighted to present this exceptional platform to hear, learn, and engage with some of the best minds in the specialty. Let us come together to exchange ideas, share experiences, and strengthen our collective knowledge.

These inspiring and enriching academic interactions will undoubtedly leave us recharged and better equipped to provide outstanding patient care—our ultimate goal and greatest responsibility.

As Brian Herbert wisely said:

“The capacity to learn is a gift; the ability to learn is a skill; the willingness to learn is a choice.”

We look forward to your active participation and to making this conference a memorable and rewarding experience for all.

Thank you and warm regards.

Hyderabad India

HYDERABAD

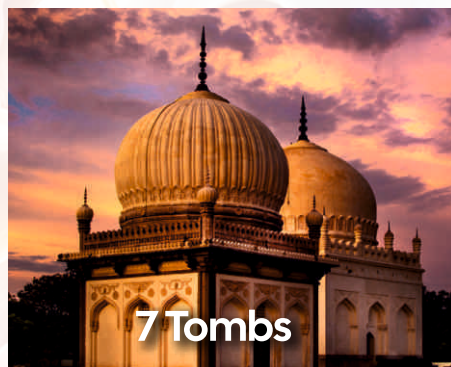

Hyderabad is the capital of southern India's Telangana state. A major center for the technology industry, it's home to many upscale restaurants and shops. Its historic sites include Golconda Fort, a former diamond-trading center that was once the Qutb Shahi dynastic capital. The Charminar, a 16th-century mosque whose 4 arches support towering minarets, is an old city landmark near the long-standing Laad Bazaar.
